

Zytech solar modules

Zytech among the best yield modules

Zytech Solar appears in PHOTON publication among the mean PV modules producers, showing our production and demonstrating a very good value for money.

ZYTECH has obtained in April a yield result of 124 kWh/kW on its polycrystalline module ZT230P. That means that our module is in a good position compared with another manufacturers.

For instance, have achieved lower yield than Zytech modules as:

Siliken 230W	poli	123,9	CH Solar	mono	123,1
Win Win 235W	poli	122,2	CSG	mono	122,8
Bisol	poli	121,3	CNPV Solar Power	mono	122,5
Solarworld	mono	121,3	CSG	poli	121,8
